7. Work Assignments					
<p>Due to the amount of on-water equipment, resources and pre-deployed boom that will be in that area, no traffic will be allowed to pass and will be diverted away by the on water Security Task Force.</p> <p>Boat 1 will be located northeast of the wreck near the bend in the False River.</p> <p>Boat 2 will be located southeast at the entrance to Franks Tract.</p> <p>Boat 3 will be located to the west in the False River.</p> <p>The vessels will have lights and sound producing devices to alert boaters as they are approaching the exclusion zone. All traffic will be diverted away.</p> <p>The Coast Guard will close the waterway beginning one day prior to the righting of the Spirit of Sacramento. The waterway closure will begin on the western side leading from the False River in approximate position: 38° 3' 12.15" N 121° 38' 10.6476" W moving east to the entrance of Franks Tract at approx position 38° 3' 1.8108" N 121° 37' 39.2844" W. This waterway will be enforced during all operations which will begin at 1300 and are anticipated to last 24 hours. Crews will work in 12 hour shifts.</p>					

1. Incident Name Spirit Of Sacramento		2. Operational Period (Date/Time) From: 09/27/16 08:00 To: 10/03/16 09:00		Assignment List ICS 204-CG

7. Work Assignments <p>Responders follow site safety plan Maintain spud barge in location and temporarily moor the Spirit of Sacramento to keep it in its current position. Parbuckle, de-water and right the vessel in accordance with the salvage plan. Salvage Master will then determine seaworthiness. Once deemed seaworthy, move her to berth following the approved transit plan, where all pollutants can be removed safely. Follow the approved disposal plan in accordance with all applicable hazardous waste laws.</p> <p>Salvage group will coordinate with Ross Island Dredging during mob and demob to coordinate safe passage to the San Joaquin River.</p>

---	--------------------------------------

The convention calls for frequency lists to show four digits after the decimal place, followed by an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control situation, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.
